Course Overview

A two-day, hands-on course in which learners act as the AI video producer of one studio — Kopi & Coins, which makes 60-second money stories for young adults in Singapore. Day 1 sets up a Claude Desktop studio (skills, the Higgsfield connector, a project), plans and storyboards Episode 1 and produces it in Higgsfield. Day 2 cuts and refines it in LahLah Video, adds a compliance skill, and ends with a mini capstone: each learner's own short film, from idea to a private TikTok or YouTube upload.

Course title	Agentic AI for Video Creation
Course code	C436
Duration	2 days · 15 instructional hours (7.5 hours a day)
Class time	9:30 AM – 5:30 PM, with one 30-minute lunch
Deck	166 slides, version 4.0 · 7 labs, each in its own folder
Training provider	Tertiary Infotech Academy Pte Ltd (UEN 201200696W)

Learning Outcomes

By the end of this course, learners will be able to:

- **LO1:** Develop editing strategies and work plans to achieve creative vision.
- **LO2:** Assess edited footage to enhance storytelling and ensure technical compliance.
- **LO3:** Develop remedial actions to ensure industry compliance and facilitate the adoption of new technologies in visual editing.

Daily Schedule

Both days run 9:30 AM – 5:30 PM: 7.5 instructional hours a day with one 30-minute lunch; refreshments are taken during activity time. The Slides column gives the deck pages for each block.

Day 1 — Plan and Make

Time	Duration	Topic / Activity	Method	Slides
9:30 AM–10:00 AM	30 min	Welcome, trainers, ground rules, learning outcomes, the Kopi & Coins scenario, course outline, lesson plan and the LMS	Lecture, discussion	1–12
10:00 AM–11:00 AM	60 min	Topic 1 — a short history of AI; the impact of AI on video creation; use cases: AI movies (play 2 minutes of PLANET HELL), micro-dramas, singers, influencers and marketing videos; meet Higgsfield; signing up (free trial); characters, locations and props with Higgsfield models; Elements; Cinema Studio; Supercomputer	Lecture, video examples, live demonstration	13–35
11:00 AM–11:40	40 min	Topic 1 — principles of storytelling and video	Lecture,	36–56

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Time	Duration	Topic / Activity	Method	Slides
AM		creation: the production lifecycle, creative vision, 60-second story structure, scripts, storyboards, shot sizes, angles and movement, characters, composition, sound and captions; why Claude directs Higgsfield better; agentic AI vs AI agents; one AI agent; skills, connectors and projects; installing LahLah Video	demonstration	
11:40 AM–12:10 PM	30 min	Lab 1 — Set Up Your Claude Video Studio	Hands-on practical	57–62
12:10 PM–12:30 PM	20 min	Claude instructs Higgsfield to make characters, locations and props; demo: Ah Ma's Love Letter and its LahLah Video timeline; types of quality issues; edit types and script review	Live demonstration, lecture	63–70
12:30 PM–1:00 PM	30 min	Lunch	—	—
1:00 PM–1:50 PM	50 min	Lab 2 — Plan the Story with Claude and the Storytelling Skill	Hands-on practical	71–77
1:50 PM–2:20 PM	30 min	Editing standards and guidelines; legal requirements for video in Singapore; broadcasting and platform standards; the post-production workflow; work plans, timelines and review gates	Lecture, demonstration	78–83
2:20 PM–3:20 PM	60 min	Lab 3 — Storyboard Artifact, Editing Standards and Work Plan	Hands-on practical	84–91
3:20 PM–3:30 PM	10 min	Topic 1 recap and check your understanding	Didactic questioning	92
3:30 PM–3:50 PM	20 min	Topic 2 — the production run through Claude; references and consistency; camera presets; the scene prompt formula; the Prompt Builder; draft low-res, upgrade the keepers; credits; platforms; directing Claude	Lecture, live demonstration	93–103
3:50 PM–5:05 PM	75 min	Lab 4 — Create Episode 1 with Claude and Higgsfield	Hands-on practical	104–110
5:05 PM–5:30 PM	25 min	Reviewing edited footage: two passes; story and emotion review; emotion, pacing and rhythm; case study: the AI music video 过来人 The OGs and how to rebuild it with Claude and Higgsfield; Day 1 review and Q&A	Lecture, video case study, discussion	111–116

Day 2 — Refine and Scale

Time	Duration	Topic / Activity	Method	Slides
9:30 AM–9:50 AM	20 min	Day 1 recap	Didactic questioning	—
9:50 AM–10:50 AM	60 min	Parameters to assess video quality; quality issues and solution types; where to fix it; LahLah Video and CapCut; the technical QC procedure	Lecture, demonstration	117–125
10:50 AM–12:10 PM	80 min	Lab 5 — Edit, Review and Refine in LahLah Video	Hands-on practical	126–132
12:10 PM–12:25 PM	15 min	Topic 2 recap and check your understanding	Didactic questioning	133

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Time	Duration	Topic / Activity	Method	Slides
12:25 PM–12:55 PM	30 min	Lunch	—	—
12:55 PM–2:15 PM	80 min	Topic 3 — the studio system; six skills for a video studio; anatomy of a skill; installing and calling a skill; industry quality standards; remedial action plans	Lecture, live demonstration	134–142
2:15 PM–3:35 PM	80 min	Lab 6 — Build a Compliance Skill and Plan Remedial Actions	Hands-on practical	143–148
3:35 PM–3:55 PM	20 min	Publishing to TikTok and YouTube with the AI label; emerging video technologies; the adoption roadmap and metrics	Lecture, discussion	149–152
3:55 PM–5:05 PM	70 min	Lab 7 — Mini Capstone: Your Own Short Film, Idea to Upload	Hands-on practical	153–159
5:05 PM–5:30 PM	25 min	The core ethical issues of GenAI video and seven studio rules; Topic 3 recap; course summary, Q&A, course feedback and the LMS	Discussion	160–166

Total instructional hours: 15 (7.5 hours a day over 2 days)

Topic-by-topic Breakdown

Topic 1 — Creative Strategy and End-to-End Video Production with Agentic AI · Slides 13–92

LO1: Develop editing strategies and work plans to achieve creative vision.

Knowledge: Types of quality issues in video content

Abilities: Review scripts to conceptualize the types of edits required to achieve creative vision of production; Develop editing standards and guidelines in accordance to legal requirements and broadcasting standards; Develop work plans to outline the processes and timelines needed for the post production processes

Topics covered:

- AI is remaking video: movies, micro-dramas, singers, influencers, ads
- Higgsfield basics: cast, sets and props, Cinema Studio, Supercomputer
- Storytelling principles, then Claude directs Higgsfield: the Ah Ma demo
- Quality issues, script review, standards and work plans

Lab 1 — Set Up Your Claude Video Studio · Slides 57–62 · Day 1, 30 min

- **Agent:** Claude Desktop — skills, the Higgsfield connector and a project
- **Output:** A Claude project "Kopi & Coins – Ep1 micro-drama (TikTok)" with five skills on, Higgsfield connected, the studio brief in its knowledge, and LahLah Video open on your computer
- **Evidence:** Five skills appear under Customize > Skills and are switched on. LahLah Video opens on your computer.
- **Lab folder:** labs/lab-01-set-up-your-claude-video-studio/

Lab 2 — Plan the Story with Claude and the Storytelling Skill · Slides 71–77 · Day 1, 50 min

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

- **Agent:** Claude Desktop — the storytelling skill
- **Output:** 01-idea__brief, 01-idea__script-v1 and 01-idea__script-review saved to the project knowledge
- **Evidence:** The brief names one audience, one message and the must-avoid rules. You accepted or rejected at least two suggestions and wrote why.
- **Lab folder:** labs/lab-02-plan-the-story-with-claude/

Lab 3 — Storyboard Artifact, Editing Standards and Work Plan · Slides 84–91 · Day 1, 60 min

- **Agent:** Claude Desktop — the storyboard skill and artifacts
- **Output:** 02-storyboard__ep01-approved.html, the asset bible, editing standards and work-plan.csv in the project
- **Evidence:** The asset bible fixes five visible traits each for Rachel, Ah Ma and the tin, with a reference prompt each. work-plan.csv lists every stage with an owner, a duration and a review gate, and fits 10 working days.
- **Lab folder:** labs/lab-03-storyboard-standards-and-work-plan/

Topic 2 — AI-Assisted Video Editing, Storytelling and Quality Assurance · Slides 93–133

LO2: Assess edited footage to enhance storytelling and ensure technical compliance.

Knowledge: Types of solutions to rectify quality issues; Parameters to assess video quality

Abilities: Review edited footage to propose changes that will enhance the story and emotions in each scene; Assess edited footage against technical parameters to ensure alignment to requirements

Topics covered:

- The production run: Claude shoots Episode 1 in Higgsfield
- References, camera presets and the scene prompt formula
- Draft low-res, upgrade the keepers; platforms
- Reviewing footage, parameters and fixes in LahLah Video

Lab 4 — Create Episode 1 with Claude and Higgsfield · Slides 104–110 · Day 1, 75 min

- **Agent:** Claude Desktop + Higgsfield MCP — the video-script and higgsfield-video skills
- **Output:** Higgsfield folder "Kopi & Coins – Ep1 micro-drama (TikTok)" with reference stills, drafts and finals; clips saved as S01-SH01.mp4 …; lahlah-edit.json and captions.srt
- **Evidence:** The script artifact is APPROVED, with an i2v and a t2v prompt and one camera move for every shot. The 1080p clips are saved in 05-edit as S01-SH01.mp4 …, with lahlah-edit.json and captions.srt beside them.
- **Lab folder:** labs/lab-04-create-episode-1-in-higgsfield/

Lab 5 — Edit, Review and Refine in LahLah Video · Slides 126–132 · Day 2, 80 min

- **Agent:** LahLah Video (or CapCut) + Claude Desktop
- **Output:** EP01_v1.mp4 and EP01_v2.mp4, a story review, a QC report with values, and a fix log
- **Evidence:** EP01_v1.mp4 exported at 1080x1920, 9:16. Screenshots of the LahLah Video timeline and the export settings saved as evidence.
- **Lab folder:** labs/lab-05-edit-review-and-refine-in-lahlah-video/

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Topic 3 — Workflow Optimisation, Industry Compliance and Emerging Video Technologies · Slides 134–164

LO3: Develop remedial actions to ensure industry compliance and facilitate the adoption of new technologies in visual editing.

Knowledge: Industry quality standards; Technologies that improve efficiency and quality of video edits

Abilities: Develop remedial actions to resolve issues that do not comply with industry standards; Facilitate the adoption of new technologies to improve the efficiency and quality of visual outputs

Topics covered:

- Claude Skills: the studio's know-how as files
- Industry quality standards and remedial actions
- Publishing to TikTok and YouTube with the AI label on
- Emerging video technology and adopting it well

Lab 6 — Build a Compliance Skill and Plan Remedial Actions · Slides 143–148 · Day 2, 80 min

- **Agent:** Claude Desktop — your own skill: kopi-compliance-review
- **Output:** kopi-compliance-review skill installed; a compliance report for EP01_v2; a remedial action plan; EP01_v3
- **Evidence:** kopi-compliance-review shows under Customize > Skills and is on. One new rule drafted for the skill.
- **Lab folder:** labs/lab-06-compliance-skill-and-remedial-actions/

Lab 7 — Mini Capstone: Your Own Short Film, Idea to Upload · Slides 153–159 · Day 2, 70 min

- **Agent:** Claude Desktop + Higgsfield + LahLah Video — all skills, platform-publish
- **Output:** Project "Capstone – [FILM TITLE]"; your film exported as EP02_v1.mp4; a private or draft upload with the AI label on; an adoption plan
- **Evidence:** Your capstone project holds the brief, the approved storyboard and the approved script. The adoption plan has a baseline, a pilot, four metrics with targets, governance and a decision point.
- **Lab folder:** labs/lab-07-mini-capstone-your-own-short-film/

Instructional Methods

Method	How it is conducted	Purpose
Lecture	Trainer explains concepts with the slides, using worked examples from the Kopi & Coins series.	Builds the knowledge each lab needs before learners start it.
Didactic questioning	Trainer asks targeted questions during and after each topic ("which edit makes this scene land?").	Checks understanding before moving on to the next lab.
Demonstration	Trainer performs the procedure live: a skill call, a storyboard approval, a Higgsfield draft and upgrade, a voice edit in LahLah Video.	Shows the standard of work expected in each lab.
Hands-on practical	Learners complete seven connected labs with Claude Desktop, Higgsfield and LahLah Video, using the lab folders and prompt pages.	Builds the abilities to plan, make, review and fix a video with agents.

© 2026 Tertiary Infotech Academy Pte Ltd. All rights reserved. · www.tertiarycourses.com.sg

Method	How it is conducted	Purpose
Peer review and discussion	Learners swap storyboards, reviews and plans and critique each other against the checklists.	Develops judgement for reviewing scripts, footage and compliance.

Resources Required

- Trainer: the v4.0 slide deck, this Lesson Plan, the Learner Guide and the lab pack (labs/, seven folders, the labs home page and the Prompt Builder).
- Each learner: a macOS or Windows laptop with internet access, a modern browser and a smartphone for viewing vertical video.
- Accounts: Claude Desktop on a plan that allows a custom connector and skills; the free 3-day Higgsfield Plus trial (100 credits, through the course link higgsfield.ai?fpr=alfred-d0d32b) or a paid plan (Plus suits the course) or the trainer's team workspace; optionally a TikTok or YouTube account for the private upload in Lab 7.
- Software installed during the course: LahLah Video, installed by Claude in Lab 1 (or CapCut desktop). Optional: FFmpeg for the measurement demo.
- All characters, scripts and data are fictitious. Learners never upload publicly and never share API keys.

Learning Reinforcement

- Every lab builds on the last: Lab 4 shoots the storyboard approved in Lab 3, and Lab 7 reuses every skill from Labs 1 and 6.
- Each topic ends with a recap and check-your-understanding questions; Day 2 opens with a Day 1 recap.
- Peer review: learners swap storyboards, reviews and plans and critique each other against the studio's standards.
- The mini capstone (Lab 7) applies the whole pipeline to each learner's own short film; two films are screened and discussed in the last 10 minutes of Lab 7.
- Your trainer shares the slides, the Learner Guide and the lab pack at the start of the course.
