Labs — Agentic AI for Video Creation

C436 · seven connected labs, one studio, one story.

The scenario

Kopi & Coins is a small Singapore content studio that makes 60-second money stories for young working adults on TikTok, YouTube Shorts and Instagram Reels. Its founder, Priya Nair, has hired you as the studio's AI video producer.

Every episode follows one family: Rachel Tan, 29, a marketing executive who is good at her job and not yet good with money; her grandmother Ah Ma, 74, who kept the family's savings in a blue butter-cookie tin; and Rachel's colleague Daniel Lim, 30, who spends every bonus before it lands.

Episode 1, The Rainy-Day Tin, teaches the emergency fund. Episode 2, Daniel's Bonus, teaches "pay yourself first". The studio has one rule it never breaks: general money education only — no product recommendations, no promised returns, and a clear disclaimer on every video.

Over two days you build the studio in Claude Desktop and take the series from an idea to a published episode:

- Set up — Claude Desktop with five video skills, Higgsfield and LahLah Video (Lab 1)
- Plan — Claude writes the story, storyboard and plan; you approve (Labs 2-3)
- Make — Claude drives Higgsfield; you edit in LahLah Video (Labs 4-5)
- Scale — a compliance skill, then your own short film from idea to a private upload (Labs 6-7)

The labs

Lab	Day	Tools	Time
01 · Set Up Your Claude Video Studio	1	Claude Desktop	30 min
02 · Plan the Story with Claude and the Storytelling Skill	1	Claude Desktop	50 min
03 · Storyboard Artifact, Editing Standards and Work Plan	1	Claude Desktop	60 min
04 · Create Episode 1 with Claude and Higgsfield	1	Claude Desktop + Higgsfield MCP	75 min
05 · Edit, Review and Refine in LahLah Video	2	LahLah Video (or CapCut) + Claude Desktop	80 min
06 · Build a Compliance Skill and Plan Remedial Actions	2	Claude Desktop	80 min
07 · Mini Capstone: Your Own Short Film, Idea to Upload	2	Claude Desktop + Higgsfield + LahLah Video	70 min

Before you start

- Claude Desktop (Mac or Windows) on a plan that allows a custom connector and skills.

- Higgsfield: the free 3-day Plus trial (100 credits) or a paid plan — sign up at https://higgsfield.ai?fpr=alfred-d0d32b (trainer's affiliate link).
- LahLah Video (Lab 1 installs it through Claude) or CapCut desktop.
- A TikTok or YouTube account for the private upload in Lab 7 (optional).
- Your phone, to watch vertical video the way viewers do.

Open first

- `index.html` — the labs home page.
- `prompt-builder.html` — pick a stage, genre and platform, tick camera effects and angles, copy the prompt to Claude.

Safety

Use only this lab's fictitious characters and data and your own accounts. Never paste an API key, password or personal data into a prompt, a file you share or a screenshot. Nothing is uploaded publicly; upload plans stay private until a person approves.
