Set-up checklist — Lab 1

#	Check	Done
1	Higgsfield account on the free 3-day trial or a paid plan (signed up through the course link)	
2	Code execution and file creation switched on	
3	storytelling, storyboard, video-script, higgsfield-video, platform-publish uploaded and on	
4	Higgsfield connector added and connected	
5	Claude called balance and showed my credits	
6	Claude called models_explore (draft and final model, with costs)	
7	Claude called presets_show and named ten presets	
8	Project created; instructions saved; studio brief in knowledge	
9	Higgsfield folder created with the project's name	
10	LahLah Video installed by Claude and opened	

Screenshot evidence: the Skills list, the Connectors list, Prompt A's answer,

LahLah Video open.
