LahLah Video — voice and typed commands

Press **Cmd+K** (Mac) or **Ctrl+K** (Windows) to open the command bar, then type or dictate. On a Mac, LahLah Voice types what you say; on Windows, press **Win+H** for voice typing.

Say or type	What happens
play · pause	Start or stop playback
split here · split at 3 seconds	Cut the clip at the playhead or at a time
delete clip	Remove the selected clip
trim start to 1.5 seconds	Trim the start of the selected clip
speed up 2x · slow down	Change clip speed
mute	Mute the selected clip
add text 'Rule 1: rainy day first' at 2 seconds	Add a text overlay
add crossfade	Crossfade into the selected clip
make it vertical · make it 9:16 · make it YouTube	Change the canvas
add music	Open the music picker
zoom in	Zoom the timeline
undo · redo	Undo or redo the last change
save project	Save the .lahlah project
export for TikTok	Export 1080x1920, 30 fps, H.264 MP4

If a command is not understood, use the exact wording above. Every change can be undone.
