Standards reference for kopi-compliance-review

Technical

- Format: 1080x1920, 9:16, constant 24/25/30 fps, H.264 MP4, 55-60 s (TikTok, Shorts, Reels); 1920x1080 for YouTube 16:9.
- Resolution: the final cut uses 1080p upgrades only — no low-res drafts.
- Loudness: about -14 LUFS integrated for social platforms; true peak no higher than -1 dBTP. Broadcast reference: EBU R128 -23 LUFS.
- Captions: every spoken line; 100% accurate; at most two lines; above the bottom 20% of the frame (35% for Instagram Reels) and clear of the right-edge buttons (WCAG 2.2 1.2.2; platform safe areas).

Content and legal (Singapore) — general guidance, not legal advice

- Copyright Act 2021: every music track, image and clip licensed or rights-cleared; licence recorded in the licence log.
- PDPA: no personal data — no real names, NRIC-like numbers, phone numbers, addresses or account screens, including inside generated shots.
- Financial Advisers Act (MAS): recommending specific investment or insurance products is regulated advice. Kopi & Coins stays general; no product names.
- Singapore Code of Advertising Practice (ASAS): legal, decent, honest and truthful; no guaranteed or exaggerated outcomes; sponsorship disclosed.
- AI labels: TikTok — More options > AI-generated content; YouTube — Studio > Attributes > AI use. Kopi & Coins labels every episode. Keep C2PA content credentials where tools add them.

Studio rules

- End card shows the call to action and "For general education only. Not financial advice." for at least 3 s.
- Fictional people only; brand colours kopi brown, cream and teal.

Risk levels

- HIGH: legal, regulatory or reputational exposure (rights, personal data, misleading money claims, missing AI label, missing disclaimer).
- MEDIUM: viewer experience or platform rejection (loudness, captions, format, safe area).
- LOW: polish (minor timing, colour match).
