Project set-up — Capstone – [FILM TITLE]

1. Create the project

Claude Desktop: **+ New Project**, name **Capstone – [FILM TITLE]**.

2. Add to project knowledge

Your filled short-film-brief, studio-brief.pdf and your editing standards

from Lab 3.

3. Paste into "Set project instructions"

```
Producer for my capstone short film "[FILM TITLE]" ([GENRE]).
[PLATFORM], 9:16, [LENGTH] s, [3-5] shots, captions on, AI label on the
end card. Fictional characters and invented brands only.
Order: storytelling, storyboard (APPROVED), video-script (APPROVED),
higgsfield-video, kopi-compliance-review, platform-publish.
References first, saved as Higgsfield Elements. Higgsfield project
"Capstone — [FILM TITLE]". Hard budget [BUDGET] credits. Low-res drafts
first (Seedance 2.0 Mini 480p); 1080p only for approved drafts.
Export name EP02_v1.mp4. Upload stays Private or a draft.
```

4. Skills and connector

The five course skills, kopi-compliance-review (Lab 6) and the Higgsfield

connector, all switched on.
