When to use

Use this skill only when the requested video task matches the description and all source assets are authorized.

Procedure

- 1 Read the approved concept and numeric values.
- 2 Create a scene with labels bound to those values.
- 3 Render a preview and inspect a contact sheet.
- 4 Export a versioned clip and evidence record.

Safety and verification

- Preview commands and paid or external side effects before execution.
- Never store credentials in SKILL.md, scripts, prompts or render logs.
- Write versioned outputs and verify the final media with ffprobe.
- Return BLOCKED when a required service, asset, right or approval is unavailable.
