

AI Prompts for Lab 07

Primary Hermes prompt

Create Kanban tasks for research, video, review and upload. Link upload to completed review and a human approval

Planning checkpoint

Before acting, return a concise plan with inputs, files to create or change, tools or skills to invoke, side effects

Independent review prompt

Review the produced artifacts against this criterion: The Kanban graph has no missing dependency; review is complete. Return JSON with observed_values, passed_checks, failed_checks, evidence_paths, security_findings, decision

Repair prompt

Repair only the failed checks in the review record. Preserve approved inputs and create a new output version
